

Report Format:

Font and Size :

- For Chapter Numbers and Titles: Times New Roman Size 14, Bold, Centre aligned, Upper case.
- Sections Numbers and Titles: Times New Roman Size 12, Bold, Left aligned, Upper case
- Sub-section Numbers and Titles: Times New Roman Size 12, Bold, Left aligned, Camel case
- For the main text: Times New Roman Size 12, Justified.

NOTE:

Should not underline the heading/subheadings and should not put colons (:) in headings or subheadings.

Paragraphs and Line Spacing : 1.5 throughout. Paragraph space-6 point.

Margins : Top, Bottom, Right: 1 inch ; Left: 1.5 inch.

Headers/ Footers : Times New Roman Size 10. Header – Project Name - top right ;

Footer – Dept, of CSE, MVSREC(A), - left side ; page number – right side

Equations : Should be edited with Microsoft Equation, and should be numbered in ascending order in each chapter:

Page Numbers : Start with Page 1 at the beginning of Chapter 1. Page numbers should be at right bottom of the page. Pages before chapters should be numbered in Roman notation – lower case (i, ii ,...) starting from Certificate and should be centred.

Figures and tables: • Position Figures and Tables as close as possible to the text where they are referred.

• Figures and Tables should be numbered in ascending order for each chapter, using the same sequence as for Equations. Figures and tables should be given number in alignment with chapter (Fig 3.1, Table 3.1 ...) and the figure number (Fig 3.1) should be referred in text.

• The number of the figure, and its caption should be typed immediately below it in Times New Roman Size 10.

• The number of the table and its caption should be typed immediately above it in Times New Roman Size 10.

CERTIFICATE

*This is to certify that the Theme Based project work entitled “**TITLE**” is a bonafide work carried out by **Student 1 (Roll No), Student 2 (Roll No), Student 3 (Roll No)** in partial fulfilment of the requirements for the award of degree of **Bachelor of Engineering in Computer Science and Engineering** from **Maturi Venkata Subba Rao(MVSR) Engineering College**, affiliated to **OSMANIA UNIVERSITY**, Hyderabad, during the Academic Year 2024-2025. under our guidance and supervision.*

The results embodied in this report have not been submitted to any other university or institute for the award of any degree or diploma.

Internal Guide

1.Name , Designation

Project Coordinators

DECLARATION

This is to certify that the work reported in the present Theme Based project entitled “XXXXXX” is a record of bonafide work done by us in the Department of Computer Science and Engineering, M.V.S.R. Engineering College, Osmania University. The reports are based on the work done entirely by us and not copied from any other source.

The results embodied in this report have not been submitted to any other University or Institute for the award of any degree or diploma to the best of our knowledge and belief.

ACKNOWLEDGEMENT

We would like to express our sincere gratitude and indebtedness to our project guide _____, **Assistant/Associate/ Professor** for his/her valuable suggestions and interest throughout the course of this project.

We are also thankful to our principal _____ and _____ Professor and Head, Department of Computer Science and Engineering, MVSR Engineering College, Hyderabad for providing excellent infrastructure and a nice atmosphere for completing this project successfully as a part of our B.E. Degree (CSE).

We convey our heartfelt thanks to the lab staff for allowing us to use the required equipment whenever needed.

Finally, we would like to take this opportunity to thank our family for their support through the work. We sincerely acknowledge and thank all those who gave directly or indirectly their support in completion of this work.

Student3(Roll No)

ABSTRACT

Student1(Roll	No)
Student2(Roll	No)
Student3(Roll	No)

VISION AND MISSION

VISION

- To impart technical education of the highest standards, producing competent and confident engineers with an ability to use computer science knowledge to solve societal problems.

MISSION

- To make learning process exciting, stimulating and interesting.
- To impart adequate fundamental knowledge and soft skills to students.
- To expose students to advanced computer technologies in order to excel in engineering practices by bringing out the creativity in students.
- To develop economically feasible and socially acceptable software.

PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

The Bachelor's program in Computer Science and Engineering is aimed at preparing graduates who will:-

PEO-1: Achieve recognition through demonstration of technical competence for successful execution of software projects to meet customer business objectives.

PEO-2: Practice life-long learning by pursuing professional certifications, higher education or research in the emerging areas of information processing and intelligent systems at a global level.

PEO-3: Contribute to society by understanding the impact of computing using a multidisciplinary and ethical approach.

(A)

PROGRAM OUTCOMES (POs)

At the end of the program the students (Engineering Graduates) will be able to:

1. **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.
6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
10. **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principle and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
12. **Lifelong learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

(B) PROGRAM SPECIFIC OUTCOMES (PSOs)

13. (PSO-1) Demonstrate competence to build effective solutions for computational real-world problems using software and hardware across multi-disciplinary domains.
14. (PSO-2) Adapt to current computing trends for meeting the industrial and societal needs through a holistic professional development leading to pioneering careers or entrepreneurship
